The PHax Track will manage data and it will be connected to the centralized database. Each Filipino will be given an identification number that will be used for their accounts in the database.

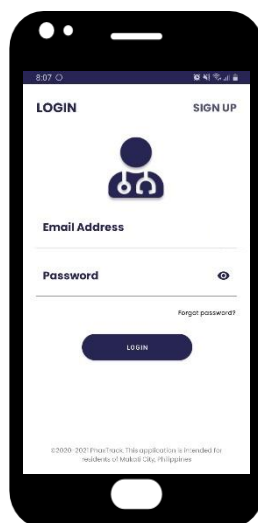

HOW IT WORKS?

After choosing between Health Care Professional (HCP) and patient, you will redirect to the login form.

FOR HEALTH CARE PROFESSIONAL (HCP)

1 Fill up the form with your email address and password and click the login button.

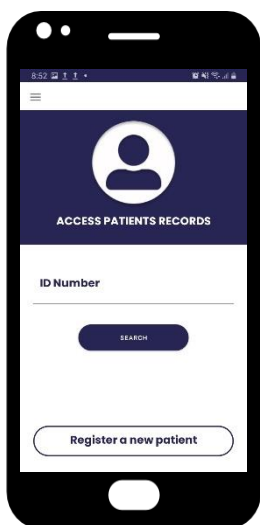

If you don't have account yet, just click the sign up at the right top corner of the screen.

Click to sign up

By clicking this you will be ask to enter your valid email address. And the password reset link will be sent to your email address.

Sidebar bar

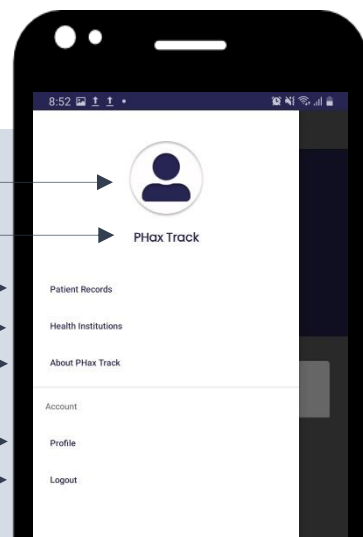

Click to register new patient

Once you login, you will redirect to this page. Here, you can search for patient by typing its id number. After that, the system will ask for the password of that patient. This is for the permission in accessing the confidential record of the patient.

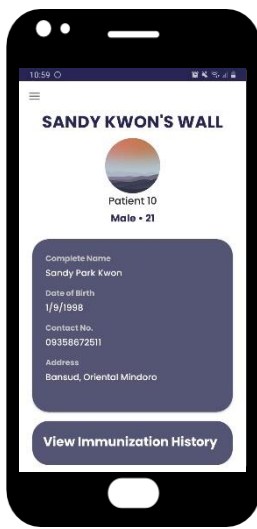

2

Here is the list of all navigation tab that you will see in the side bar.
